

## One Lane of Traffic on Quarry Road to Close on Wednesday, 10/30/13

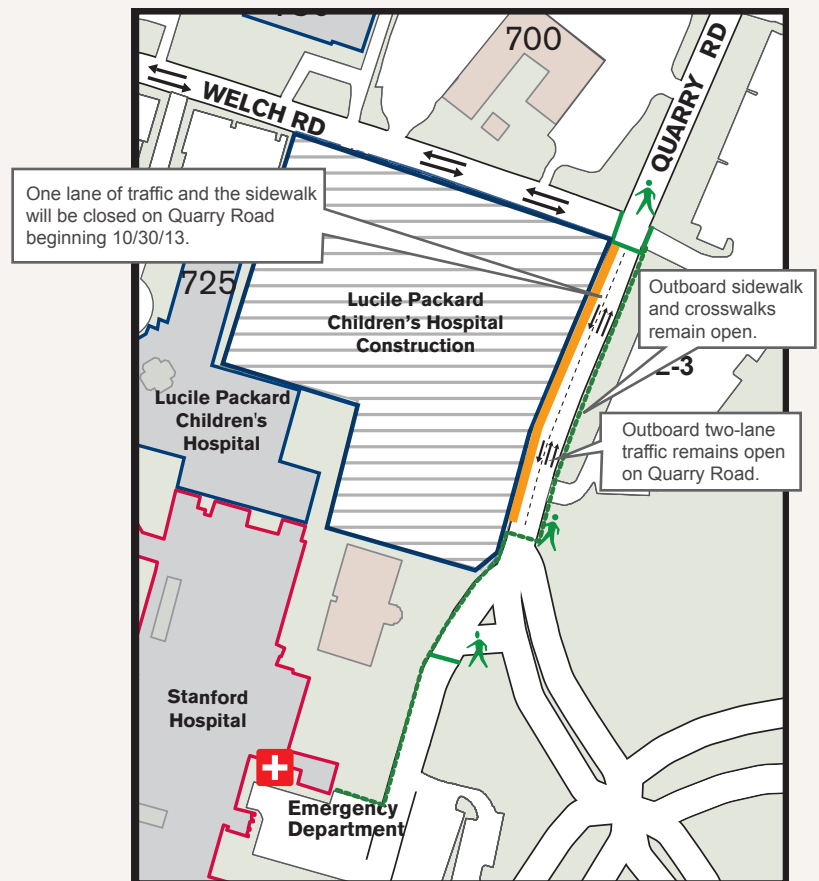

At 12:01 am on Wednesday, October 30th, Lucile Packard Children's Hospital construction crews will close one lane of traffic on the inboard (Packard) side of Quarry Road between Welch Road and Quarry Extension. One lane of the two-lane road will remain open at all times.

This lane closure is necessary to accommodate additional construction trailers as part of the Packard Children's Expansion Project. This closure will remain in effect throughout construction.

Traffic delineators will be used to block off the lane of traffic on the morning of 10/30. The delineators will be replaced with concrete K-Rail barriers throughout the morning.

The sidewalk closest to the Packard construction site on Quarry will also close. The sidewalk and crosswalks to outboard Quarry Road will remain open. Bicyclists may share the road with vehicles during this time. The Marguerite stop on Quarry Rd will remain operational.

Thank you for your cooperation.

For more information, please call the construction hotline at (650) 701-SUMC (7862) or email [info@SUMCRenewal.org](mailto:info@SUMCRenewal.org).
